course description

The course is laid out on what used to be, and still technically is farmland. The course will have runners in the sub-bantams running in one large circle while the older age groups will run the same loop and with another half lap added on. The course is a little rough as it is "pasture" grass so runners will need to watch out for small holes, etc... The course is 99 % grass with 1 % small compacted gravel road. If it rains there will be some small muddy areas.

Course maps are available on line at www.charlestoncity.info/recreation or e-mail the recreation department at rishovdw@ci.charleston.sc.us

** Special Notes**

- Awards will be given for the top 6 finishers in each age group.
